During the Warring States Period, the ware was popular due to its exquisite techniques and vivid patterns depicting animals and clouds. Lacquer relics excavated in the Mawangdui Han Tombs, which are over 2,000 years old, amaze visitors with their pearl-like sheen. The Yuan, Ming and Qing dynasties were also prosperous periods during which more than 400 varieties were used as common implements and as ornaments.

won the honor all over the country. Based on refined paint, the traditional Yangzhou lacquer is made by emerald, agate, coral, white jade, ivory, rosewood, mica, luminated spiral, gold and silver etc. more than eight hundred kinds of precious materials.

### **Chinese Lacquer Ware, History Of Chinese Lacquer Ware**

The secret of manufacturing Chinese lacquer was first discovered well over 2,000 years ago but did not spread beyond China, Korea, and Japan until the relatively recent past. This variety of lacquer is produced by carefully harvesting sap from certain trees, most commonly the species *Toxicodendron vernicifluum*. This is not a simple process, as the sap of these trees can be effectively gathered only during the summer months and only before the sun has fully risen.

### **What Is Chinese Lacquer? (with picture)**

Chinese lacquerwork, decorative work produced in China by the application of many coats of lacquer to a core material such as wood, bamboo, or cloth. The Chinese had discovered as early as the Shang dynasty (c. 1600-1046) that the juice of the lac tree (*Rhus vernicifera*), a naturally occurring

### **Chinese lacquerwork | Britannica**

Lacquer was a popular form of decoration and protective covering in ancient China. It was used to colour and beautify screens, furniture, bowls, cups, sculpture, musical instruments, and coffins, where it could be carved, incised, and inlaid to show off scenes from nature, mythology, and literature. Time-consuming to produce, Chinese lacquerware became highly sought after by those who could ...

### **Chinese Lacquerware - Ancient History Encyclopedia**

After thousands of years, Chinese lacquer ware continued to develop and evolve, and reached a

high level. Chinese painted gold lacquer and other painting lacquer ware had a great influence to Japan. It's one of the most important inventions in the chemical technology and the industrial art aspect in China ancient times.

### **Chinese Lacquerware: History, Production Area & Facts**

Lacquer itself has a long history in the far east, dating back over 2,000 years in China. The Chinese are experts at applying several thin layers to achieve the look they want. Important Reminder: Lacquer is dangerous to use. The solvents you need to use it are highly flammable, toxic, and air polluting.

Mo Di and the School of Names. The Warring States period began 2500 years ago at the time of the  
invention of the crossbow. Needham notes that the invention of the crossbow "far outstripped the  
progress in defensive armor", which made the wearing of armor useless to the princes and dukes of  
the states. At this time, there were also many nascent schools of thought in China—the Hundred  
Schools ...

Diameter of large box 8 7/8 in., H 6 in. This is a rare set of Han Dynasty (BC 206-AD 220) lacquer wood cosmetic box with gilt decoration. These smaller containers are probably used to hold jewels and perfumes. It is surprised that these lacquer wood boxes are in such good condition after more than 2000 years of storage.
