The global financial crisis has made it painfully clear that powerful psychological forces are imperiling the wealth of nations today. From blind faith in ever-rising housing prices to plummeting confidence in capital markets, "animal spirits" are driving financial events worldwide.

Animal Spirits: How Human Psychology Drives the Economy ...

Animal Spirits: How Human Psychology Drives the Economy, and Why It Matters for Global Capitalism is a book written to promote the understanding of the role played by emotions in influencing economic decision making. According to the authors, economists have tended to de-emphasize the importance of emotional factors, as the effects of emotions are difficult to model and quantify. The book asserts that a variety of otherwise puzzling questions can be answered once one allows for the effect that e
