Capitalism In The Web Of

In Capitalism in the Web of Life, Jason W. Moore argues that the sources of today's global turbulence have a common cause: capitalism as a way of organizing nature, including human nature. Drawing on environmentalist, feminist, and Marxist thought, Moore offers a groundbreaking new synthesis: capitalism as a "world-ecology" of wealth, power, and nature.

capitalism is used here in the broader philosophical sense, and not in the narrower economic sense, i.e. a free-market.

The Capitalism Site | Capitalism is the ideal social system

Capitalism in the Web of Life is about how the mosaic of relations that we call capitalism work through nature; and how nature works through that more limited zone capitalism. - is double movement—of capitalism through nature of nature through capitalism—is what I call the “Double Internality.”

Capitalism in the Web of Life - Jason W. Moore

Capitalism and the Web of Life is a genuine attempt to match the scope of Marx's dialectical and materialist vision. At the same time it seeks to recalibrate it in the face of a different kind of crisis. Marx would have been happy with the brutalism of the four cheaps of labour-power, food, energy and raw materials as the driver of capital.

Capitalism | Definition of Capitalism by Merriam-Webster

Capitalism is an economic system. The productions of goods and services are privately owned and operated for a profit. Capitalism provides business owners and employees the freedom to manage their incomes. The only Government involvement is taxation and standard regulatory laws.

What is Capitalism? - Capitalism

Laissez-faire capitalism does not mean anarchy. Under capitalism, the government's job is to protect rights as a referee (which means the banning of the initiation of physical force from all relationships, and the enforcement of voluntarily made contracts), not to regulate people's affairs as a dictator by violating their rights.. For example, if a company sells a product as being of a ...

What capitalism urgently needs is a new, more focused approach to government intervention—one that will ease the pain of disasters but leave economies free to grow on their own after the crises ...

The Rescues Ruining Capitalism - WSJ

The “intellectual dark web” made up of thinkers like Jordan Peterson and Sam Harris likes to pose as a bastion of serious intellectual inquiry and open debate. But its animating spirit is deeply conservative: a determination to “prove” that our societies' hierarchies of wealth and power are natural and inevitable.
