The publication replaces CIE 115-1995 "Recommendations for the Lighting of Roads for Motor and Pedestrian Traffic". The publication is written in English, with a short summary in French and German. It consists of 43 pages with 1 figure and 18 tables, and is readily available at the National Committees of the CIE or via the CIE Webshop.

### **Lighting of roads for motor and pedestrian traffic | CIE**

One of the crucial street lighting design steps considerably influencing electricity consumption is the selection of an appropriate lighting class. Therefore, after a detailed analysis of the current CEN and CIE selection procedures for streets and roads with motor or mixed traffic, several

modifications of the CIE 115-2010 procedure are proposed.
