COMPUTING

Computing in Key Stage 1 In the new curriculum computing is seen to be a foundational subject, vital in helping children understand the digital world around them. Computational thinking is more about teaching kids problem-solving than coding languages, and the intellectual skills they'll gain will be useful for whatever they do in life.

Computing in KS1 | Year 1 & 2 computing curriculum ...

The introduction to the programme of study clearly identifies the three strands within computing. The core of computing is computer science, in which pupils are taught the principles of information and computation, how digital systems work, and how to put this knowledge to use through programming.

Computing in the national curriculum

Pupils at key stage 1 should be taught to: understand what algorithms are, how they are implemented as programs on digital devices, and that programs execute by following precise and unambiguous instructions; create and debug simple programs; use logical reasoning to predict the behaviour of simple programs

Primary School Coding Curriculum Key Stage 1

The focus of the new programme of study undeniably moves towards programming and other aspects of computer science. Programming has been part of the primary national curriculum right from the start, as 'control' or 'sequencing instructions', although this has too often been overlooked or treated superficially.
