I'm giving two stars because it is a CRSI design manual, and it is a nice, high quality paperback that showed up promptly. I'm withholding three stars because it is a reprinting of a 1950's edition CRSI manual, there's no mention that its a reprint of an old (very old) edition, and the lack of email address or phone number for the publisher anywhere on the web and a mention of year 2012 in the ...
