Planning and controlare critical management activities regardless of the type of organization being managed. Modern managers face the challenge of sound planning and control in small and relatively simple organizations as well as in large, more complex ones, and in nonprofit organizations. 1.2 Planning: Its Meaning, Nature, and Importance

Chapter 1: Basic Concept of Planning

The modern origins of urban planning lie in a social movement for urban reform that arose in the latter part of the 19th century as a reaction against the disorder of the industrial city. Many visionaries of the period sought an ideal city, yet practical considerations of adequate sanitation, movement of goods and people, and provision of amenities also drove the desire for planning.
