LG Air Conditioner - Quick & Easy Installation - YouTube

Install the Mounting Bracket Mount the evaporator inside the room on an exterior wall away from direct sunlight, doorways and sources of dust. Make sure this area of the wall is free of wires, pipes and ducts that would interfere with making a hole for the line set. Mark the stud locations and fasten the bracket to them with screws.

While you may think you could install an LG air conditioner yourself, the process is more complicated than it looks. It requires drilling holes in the interior and exterior of your house, running tubing, and wiring electricity to support the unit. Compare to Other Air Conditioner Brands *All information accurate as of 1/30/2020.

LG Air Conditioners - Reviews.com

The installation of a ductless heat pump is the same as the installation of a ductless air conditioner. The term mini-split applies to both air conditioning and heat pump capability. All ductless systems we install are mini-split (or split) units. Because they are in the same unit, the installation requires the same assessment process.
