## **Machine Shop | Mechanical Engineering**

A machine shop is a room, building, or company where machining, a form of

# Get Free Machine Shop Engineering

subtractive manufacturing, is done. In a machine shop, machinists use machine tools and cutting tools to make parts, usually of metal or plastic (but sometimes of other materials such as glass or wood). A machine shop can be a small business (such as a job shop) or a portion of a factory, whether a toolroom or a production.
