Description For algebra or calculus-based introductory physics courses. TIPERs: Sensemaking Tasks for Introductory Physics gives introductory physics students the type of practice they need to promote a conceptual understanding of problem solving. This supplementary text helps students to connect the physical rules of the universe with the mathematical tools used to express them.

I used to use secret scent expressions solid deodorant, but in the past half year have used the same kind in gel bc my mom got it by mistake. I like it because it doesn't leave any white residue which I somehow always get with that solid deodorant. I don't really know if the gel works better cause I wasn't paying attention when I switched. With spring and summer coming around and my trip to ...
