The Boost might be the most misunderstood product that Sonos sells. (And maybe its most important.) It connects directly to your home's router and creates it's own Wi-Fi mesh network, just like a Google Wi-Fi or an Eero hub, but this new wireless mesh network only works with Sonos speakers — and it prioritizes audio quality over ...

The Complete Sonos Buying Guide: Every Speaker, Soundbar ...

When you set up your Sonos system for the first time or add a new product to your existing system, you'll need the Sonos app on your phone or tablet. The app will guide you through setting up your Sonos products one by one, adding your music and voice services, and getting all of your products updated. Below, you'll find download links for the Sonos app as well as links to setup ...

Set up your Sonos system | Sonos

Sonos is an American developer and manufacturer of wireless home audio products, including smart speakers. The basic idea behind its products is Whole House Audio, i.e., to allow a household to play music from a variety of sources in multiple rooms simultaneously, so that different rooms may hear either the same music source in sync or different music sources.

Sonos - Wikipedia
