Product News | PTE - Power & Transmission

The fully developed and high-quality Voith Turbo BHS diaphragm couplings have proven their worth, especially in turbo systems. As a firstclass product with low weight, they are capable of transmitting high torque at high speed. At the same time, they compensate for axial, radial and angular misalignment of two coupled shafts. Diaphragm couplings are designed and manufactured by Voith for torques of up to 1 500 000 Nm and speeds of up to approx. 80 000 rpm.
