Monitor User Manual - Samsung Display Solutions

Samsung monitor display is blank The most common reason for a monitor to be blank is that it's turned off, or it's hibernating or on a screen saver and will wake up with input. Assuming that's not the case, then troubleshooting involves identifying whether the issue is with the monitor or with the device it's connected to.

Samsung monitor display is blank

Check the power indicator lights. If your monitor won't display an image, turn it on and watch the lights at the edge of the monitor. If one or more lights turn on, continue to the next step. If the lights won't light up, the power supply is broken (or one of the attachments leading to the power supply).
