It's easy to search Wikibooks by topic, and there are separate sections for recipes and childrens' texbooks. You can download any page as a PDF using a link provided in the left-hand menu, but unfortunately there's no support for other formats. There's also Collection Creator - a handy tool that lets you collate several pages, organize them, and export them together (again, in PDF format). It's a nice feature that enables you to customize your reading material, but it's a bit of a hassle, and is really designed for readers who want printouts. The easiest way to read Wikibooks is simply to open them in your web browser.

In some cases, bluish to bluish gray colors can only be seen as chatoyant flashes. Hawk's eye has a lower iron content than tiger's eye, which can help to distinguish the two similar materials. In fact, it is the oxidation of iron that turns hawk's eye into tiger's eye; iron turns the material browner.

Hawks Eye and Tigers Eye. Ironically, rather than calling Tiger Eye the brother of Hawks Eye, it may be better to say that Hawks Eye is the parent of Tiger Eye. After all, Tiger Eye is actually derived from Hawks Eye. The transformation of crocidolite to quartz leaves behind oxide: if there is less iron left over, you get the typical blue of ...
